Education

Vivekananda Institute of Professional Studies — Technical Campus
B.Tech (IIOT)

Aug 2024 – July 2028
CGPA: **9.17**

Geeta Vidya Mandir Public School, Panipat
CBSE Class X: **80%** | Class XII: **86.2%**

Apr 2021 – Mar 2024

Skills

Languages: Python(pandas,numpy,scikit learn,matplotlib), C/C++

Machine Learning: Linear Regression & Logistic Regression, Decision Trees,Random Forest,K-Means Clustering

Development: HTML, JavaScript, TypeScript, React.js, Tailwind CSS, React Native

Tools: Git, Jupyter Notebook, Excel.

Experience

Summer Research Intern — IIIT Delhi

June 2025 – Aug 2025 [GitHub](#)

- Collected and analyzed real-time physiological data from a wearable device monitoring **6 vital parameters** (HR, SpO₂, temperature, GSR, BP, sleep)
- Performed data preprocessing, noise filtering, and feature extraction on multi-sensor health signals
- Applied statistical analysis to identify trends and anomalies in vital signs

Relevant Coursework

- Data Structures and Algorithms
- Probability and Statistics
- Mobile Application Development

Projects

CRM Automation System — EY Techathon (Aditya Birla Group Use Case)

[GitHub](#)

- Built an automated CRM system using **n8n** to manage customer interactions and workflows
- Integrated APIs and databases to handle customer records and lead management
- Automated follow-ups and task tracking, reducing manual effort and improving process efficiency

AetherNet — YOLOv8L Object Detection System

[GitHub](#)

- Built an end-to-end object detection pipeline using **YOLOv8-Large** on a custom dataset
- Performed dataset collection, annotation, preprocessing, and augmentation for improved generalization
- Trained and evaluated the model using PyTorch-based Ultralytics framework, achieving **98.2% mAP@0.5**

Swasthya Sishu — Pediatric Healthcare Analytics System

[GitHub](#)

- Collected and analyzed physiological data to identify health trends and potential risks and Implemented data preprocessing, noise filtering, and feature extraction on multi-sensor health signals.
- Applied machine learning techniques for backend analysis to detect anomalies and support early diagnosis

Achievements

- Top 100 Winner** — College Youth Ideathon 2025 at IIT Delhi (13,000+ teams)
- 3rd Position** — SIH Internal Hackathon, VIPS New Delhi
- 4th Position** — AURATHON 2025, GTBIT New Delhi

Research Papers & Patents

- Presented research on **Green Materials** at an international conference held at IIPA Campus
- Patent accepted for **AI-Driven Intelligent Traffic Management System**
- Authored research work titled *“SmartEye: IoT and FPGA-Accelerated Framework for Real-Time Traffic Surveillance and Violation Detection”*
